

Acknowledgements

I am greatly indebted to my research supervisor Dr Mahesh Kumar and thanks to him for his guidance and friendly support throughout the course of my Ph.D. work. I am grateful to him for introducing me to the area of voltage tunable devices.

My thanks to Dr S R Vadera, Dr Deepak Gopalani and Sh G L Baheti of Defence Laboratory (DRDO) Jodhpur to provide me an opportunity for my Ph. D work at Indian Institute of Technology Jodhpur (IITJ). I also acknowledge to my DRDO colleagues Mahaveer Singh, Ajay Singh Jodha, Dr Vijay Singh Choudhary, Amit Sharma and Dr Pradeep Narayan for their constant support during entire course of my Ph. D. work.

A part of my thesis would have been incomplete without the support of Dr Jitendra Singh, CEERI Pilani, Dr Nirupam Banerjee, Faculty of Science & Technology, University of Twente and Dr Basanta Roul, IISc Bangalore who helped me in various characterizations and interpretation of experimental results. I would like to sincerely thank to Dr Satyajit Sahu and Dr Manikandan Paranjothy of IIT Jodhpur for fruitful discussion during the journey of Ph.D.

It is a pleasure for me to acknowledge and special thanks my IITJ labmates; Sapana Ranwa, Vijendra Singh Bhati, Deepak Bharti, Dr. Saravanan Rajamani, Mohit Kumar and Adarsh Nigam for their invaluable help during experimental work. The kind support and encouragement from each and every member of Department of Electrical Engineering, IIT Jodhpur is appreciated. The experimental facilities and support received from the IIT Jodhpur is gratefully acknowledged.

I express my deepest gratitude to my wife and children for their understanding, love and bearing with me during the Ph.D work. Their support and encouragement made this dissertation possible. It would have never been possible to have my research career without blessings and love of my parents.

Surendra Singh Barala
