

Acknowledgments

First and foremost, I owe my deepest gratitude to my supervisor, *Dr. Anil Kumar Tiwari*, for encouragement as well as for constantly reminding me to be perfect in the little things that I do each day. In the process, I have learnt many technical and non-technical aspects of professional work. Your advice on both research as well as on my career have been priceless.

I, hereby, thank all the professors who helped me by providing research related materials. I acknowledge and thank to all the non-teaching staff and technical staff at the IIT Jodhpur for helping me in the experiments performed towards the thesis work. My research would not have been possible without their helps.

I am thankful to Dr. Om Lata Bhagat, Assistant Professor at AIIMS Jodhpur in the Department of Physiology, for her kind support to help to understand the biomedical terms and to identify the diagnostically useful parameters.

My stay at the Institute was a wonderful experience because of my friends, *Suresh Singh, RaviRaj Choudhari, Deepak Chhangani, Parmod Paul and Rakesh Kumar*. I am grateful to all of them for all the liveliness they infused into the non-academic part of the days at IIT Jodhpur and for all the fun we have had in the last three and half years.

I acknowledge and thank my family, especially my wife *Preeti Yadav*, for the patience and love with which they ushered on me, and for bearing with me even when I was not spending enough time with them. I pay respects to my *parents* for all their *love, sacrifices and blessings*.
