

Acknowledgements

It is a great pleasure and proud privilege to express my sincere, deep sense of gratitude and profound indebtedness to my research supervisors *Dr. Ambesh Dixit and Dr. S.R. Vadera*, Director, Defence Laboratory, Jodhpur, for their invaluable guidance, thought provoking suggestions, creative criticism and supervision during the entire course of my thesis work at Indian Institute of Technology (IIT), Jodhpur and Defence Laboratory, Jodhpur. Their critical suggestions and constant encouragement throughout this work as well as in my professional career have always been a source of inspiration. This thesis would not have been possible without their gracious support, great inspiration, and spirit of critical examination and analysis of data.

It is my profound privilege to express my special thanks to *Dr. N. Kumar*, Former Director, Defence Laboratory, Jodhpur for his constant guidance, deep interest, valuable suggestions and useful discussions at different stages of my work. I express my deep sense of sincere gratitude and thanks to *Dr. Manoj Kumar Patra, Scientist 'E'*, Defence Laboratory, Jodhpur for constant encouragement and suggestions throughout this work. I am obliged to him for his whole hearted support during the experimental works, analysis of results and compiling the thesis work. I express my sincere gratitude and thanks to *Sh. R.K. Jani, Scientist 'D'* for microwave measurements of samples during my thesis work as well as fruitful discussion during work. I take this opportunity to thank *Dr. R. Vijayaraghavan*, Group Head and all the colleagues of Materials Development Group, Defence Laboratory for their support and encouragement provided during work. I also acknowledge and express thanks to *Ms. Anjali Bhatia*, Head, Camouflage Division, Defence Laboratory for her support at various stages of work.

I am also thankful to *Goutam Kumar Gupta, Belal Usmani, Mary Sneha, S. K. Barala, Anurag Sahu, Ritesh Patel* and other group members at IIT Jodhpur for their direct and indirect help during experimental work.

I am indebted to my parents (*Late*) *Dr. D.R. Saini & Mrs. Soni Devi*, whose prayers, warm support, blessings, love, and confidence helped me to complete this work. Nothing can compare the sacrifices given by my wife *Mrs. Dazy Saini* with her unconditional love and support at each turn of my research work. Life blessed me with her. My sons *Tanmay* and *Chinmay* always refreshed me with their smiles and affection during the research work. My brothers *Deepesh* and *Mukesh* constantly boosted me morally to accomplish this work. Last but not the least, I must admit here that the everlasting memory of my grandfather (*Late*) *Sh. Rameshwar Saini* and grandmother (*Late*) *Mrs. Darkhali Devi* has been the constant driving force for me behind this endeavor.

Lokesh Saini
Ph.D. Student
