

Problem Statement	Purpose of Study	Current Approaches	Conclusion
		○○○○○○ ○○○○○○○○ ○○○○○○ ○○○○○○○○○○	
Problem Statement			

- ▶ The stock market always attracts the investors to invest money and earn profit
- ▶ Fundamental driver behind maximizing profit is the strategy of buying and selling of the stocks
- ▶ The prediction of these pattern always been a challenging task and mainly due to complexity, high volatility and non-linearity in the data
- ▶ Prediction of buy/ sell is an important factor, and need to improve machine learning and other techniques
