

# Acknowledgment

First and foremost, I would like to extend my sincerest thanks to my research advisor Prof. Subhashish Banerjee. This work has been made possible only with the continual guidance and encouragement I received from him over the past four and half years. I am really impressed at the way he efficiently organizes his work and devotes time to meet each of his graduate students individually on a regular basis, along with managing his numerous administrative responsibilities.

I have yet to meet someone as diligent, detail-oriented, attentive and organized as Prof. Anirban Pathak, Prof. R. Srikanth, Prof. Anil Prabhakar, Prof. K. K. Sharma, Prof. V. Narayanan, Prof. A. A. Bazil Raj, Prof. Ashutosh Kumar Alok, Prof. Somnath Ghosh and Prof. Atul Kumar. Their mentoring style has always been to encourage students to find for themselves the interesting questions to answer, and to help them by manoeuvring their thought processes in the right direction, rather than influence them to tackle well-defined problems - a philosophy that has been key to my growth as a researcher, and will be a guiding light for me in the years to come.

I would like to thank my present and former colleagues Dr. Chitra Shukla, Kishore Thapliyal and U. Shrikant for the numerous interesting dialogues we have had on a wide variety of topics, the amount I have learned from which is invaluable. I would especially like to thank Prof. Anirban Pathak and Prof. R. Srikanth for patiently answering all my technical questions for all these years.

My family and friends have always been very supportive towards all my endeavors so far. I am what I am because of my parents Mrs. Santosh and Mr. Kailash Chandra Sharma, and no words are enough to thank them. I thank my sisters Sunita, Anita, Pramila, and Rekha for all the fun times laughs and fights we have shared while growing up. I am really grateful to my best friend Satish for having been there for me all these years. I am really grateful to my best friends Javid, Supriyo, Khushboo, Jyoti, Sanjoy, Priya, Suresh, Satendra, Gautam and Manish for having been there for me whenever I needed them, and for the nice times, I enjoyed spending with them over the last couple of years.

Finally, I would like to thank all my collaborators in IIIT Noida, PPISR Bengaluru, DIAT Pune, MNIT Jaipur and IIT Madras.
