

List of Tables

<i>Table</i>	<i>Title</i>	<i>page</i>
2.1	Properties of ZnO	8
2.2	Different Dopants and Their Ionic Radii	13
2.3	Advantage and Disadvantage Different Deposition Techniques	15
2.4	Different Memory Technology and Properties	34
4.1	Different Structural Parameters for ZnO and Zn:ZnO Thin Film	50
4.2	Reported Raman Modes and Observed Raman Modes in ZnO and Zn:ZnO Thin Films	52
5.1	Various Parameters for Doped and Pristine ZnO Nanorods, Estimated from XRD	60
5.2	Ideality Factor and Barrier Heights of The Diodes Using Thermionic Model and Cheung Model	65
