

Acknowledgements

First and foremost, I would like to thank the Almighty God, for being graceful to me. I dedicate this thesis work to my parents and my little lovely son Hirdyansh (Ansh). They were the backbone and motivation throughout the Ph.D. journey. My son's blissful smile always made me feel joyful and stronger. I am glad to put gratitude to my family, brothers, and sisters for their encouragement and love. I am especially grateful to my parents-in-law and brother in law for their support and understanding me. I am indebted to my wife 'Ritu' for her sacrifices and being by my side at all ups and downs. She always encourages me in all my pursuits and inspires me to follow my dreams.

I take this opportunity to express immense gratitude to my Ph.D. supervisor "Dr. Ambesh Dixit", for considering me suitable as a doctoral student at IIT Jodhpur. He motivated me throughout with his precious advice, and fruitful discussions that always boost me up and help me to channel my activity towards completion of this work. I truly admire his passion and his dedication to work. He has provided me an excellent platform for research, and without his excellence, wisdom, and careful supervision, this work would never be complete.

Besides my supervisor, I would like to thank the rest of my Ph.D. committee member Dr. Laltu Chandra presently at IIT BHU, Dr. V. Narayanan and Dr. Kirankumar Hiremath from IIT Jodhpur for their insightful comments, constructive criticism and suggestions which critically improved my research work.

I am also thankful to my seniors for encouraging me and making me familiar with the research environment at the early stage of my work. Furthermore, I would like to thank my friends Goutam Kumar Gupta, Anurag Sahu, Chandni Kumari, Rajneesh Chaurasiya, Abhijit Kale, Ajay Tiwari and M.Sc. juniors for making this long journey very simple and joyful.

I, hereby, thank all the scientists and professors who helped me, providing research guidance & support during my research work. My acknowledgment also extends to all those people, apart from aforementioned whom I was fortunate enough to meet with, during this journey and who enriched me with their support and knowledge.

I thank the Ministry of New and Renewable Energy (MNRE) Government of India for providing financial support to carry out this research work. I thank the Department of Science and technology (DST), Government of India, for providing financial support for my international visit to Mexico through project DST/INT/Mexico/P-02/2016. Finally, I would like to express my sincere thanks to IIT Jodhpur and MHRD for providing me a place to accomplish my research work.

Rajesh Kumar
Ph.D. Student
