

Acknowledgements

I would like to express my sincere gratitude towards my supervisor *Dr. Samanwita Pal* who spent a lot of time and extended much-of efforts in the discussion on the chosen research topic, related experimental procedures, and the obtained results. She helped me in every possible way to become creative in time of this highly competitive field with limited resources at hand. I owe my entire confidence stimulation and presentation skills to her fabulous mentoring. Her way of making me understand the complexity of the issue I dealt with was remarkable in making me understand the basics of the work, and she taught me the essence of a good teacher.

I want to acknowledge my doctoral committee members, *Dr. Meenu Chhabra*, *Dr. Manikandan Paranjothy*, and *Dr. Sushmita Paul*, for their useful suggestions and scientific discussions. I truly thank *Dr. Karunakakar Kar* for his considerable advices and for allowing me to work in his lab at JNU, New Delhi. I want to acknowledge the MHRD for providing me financial assistantship and student office section at IIT Jodhpur for their support. I am grateful to the Department of Chemistry and lab technical staff *Mr. Ganpat* and *Subham*, for their help during the handling of lab instruments. I am also grateful to *Ms. Swati Kushwaha*, the office staff for her cooperation. I also thank *Dr. Bhawani Singh Joshi* (NMR Bruker), *Mr. Manmohan Vyas* (Bruker India), and *Mr. Anish Nair* (Bruker India) for their generous help. I want to convey my deep regards to *Dr. Phani Kumar* and *Ravikant Reddy* (CSIR-CLRI) for discussing NMR experiments and sharing knowledge. I also want to thank *Dr. Guru Prasad Kathur* for his valuable suggestions.

I want to thank my lab mates *Deepak*, *Bhawna*, *Pooja*, *Vikram*, and *Rajat* for maintaining a healthy lab environment and discussing in every minute detail. Special thanks to *Bhawna* and *Deepak* for their help, constant discussion on research, support, and friendship. I want to thank *Dr. Bibin* for helping me with molecular docking and ITC measurements. I want to thank *Sachin*, *Swarn* and *Amitap* for all the helpful discussions we made. I would like to thank my friends *Priya* and *Shilpa* for sharing great memories and laughs. Thank you for being there in IIT Jodhpur to help me. Without their assistance, it would have been a tougher journey. I also want to acknowledge my friends *Jyoti*, *Shobha*, *Namita* and *Anita* for counseling me when I needed it.

I would like to thank my role models, my mother, *Mrs. Nirmla*, and my father, *Mr. Jasmer Singh*, for believing in me. I am very much grateful and fortunate for their unconditional love and supports. I also want to acknowledge my late *Grandmother* for her love and affection. My mother and late grandmother have been strong women in my life who were by my side every time I needed and supported my work in every possible way. Their support led to my peace of mind, and I had the privilege of talking on every important and unimportant issue with them in every manner. A special thanks to my brothers *Vikas* and *Amit*, my sister in law *Priya* and my mother in law *Mrs. Krishna* and father in law *Mr. Chander Bhan*, for their enduring support and advice in helping me make key decisions.

Thanks to my son *Megh Khatri*, the most beautiful gift from God, who was born during my Ph.D. time. His smile and love always gave me strength. Lastly and most importantly, I want to thank my husband *Vitesh* for his patience and for creating a beautiful life and family with me. I apologize to all I missed in this acknowledgment.
