

## Acknowledgment

It has been an incredible experience while pursuing a doctoral degree at the Indian Institute of Technology Jodhpur. I was blessed to share this experience with many people and like to extend a few words of appreciation and gratitude towards them. First of all, I express my deep gratitude toward Almighty God for giving me this opportunity and the capability to pursue successfully.

I am sincerely thankful to my supervisor *Dr. Kaushal A. Desai* for his valuable suggestions, ungrudging support and never-ending patience. It was an honor and privilege to learn the insight of research methodology and the art of performing experiments from his experiences. The joy and enthusiasm he has for the research were contagious and motivational for me even during the tough times in my Ph.D. I also express my profound indebtedness towards him for the time he took out from his hectic schedule to have long technical discussions during the course of the thesis. The realization of this thesis could have never been possible without his inspiration and timely guidance.

I am grateful to all my Doctoral Research Committee members *Dr. Anand Krishnan Plappally*, *Dr. Suril Shah* and *Dr. Chiranjoy Chattopadhyay*, for their valuable comments and constructive inputs during my presentations at various stages of the doctoral program. I am also grateful to IIT Jodhpur and the Ministry of Education (MoE), India for providing necessary funding and support to carry out this research work.

I feel lucky to have the opportunity to meet and share my working days with wonderful people at the CADM Lab, Metrology Lab and Central Workshop. I am very much thankful to the technical staff, *Mr. Chandra Veer Charan*, *Mr. Praveen Suthar*, *Mr. Bhagya Wardhan* and *Mr. Dhavalbhai M Raiyani* for their constant encouragement and throughout support in facilitating the timely availability of consumables and equipment for experimentation. I am also thankful to *Mr. Bharat* and *Mr. Vikram* for assisting me in performing machining operations at Central Workshop.

I would like to thank *Mr. Alankar Agarwal* and *Mr. Pratik Paliwal* for being one of the most supportive friends from the beginning of this doctoral program. They have been my pillars of strength during challenging moments. I would also like to acknowledge some of my friends and classmates, *Mr. Abhishek Sahu*, *Dr. Shraddha Choudhary*, *Mr. Amrik Singh*, *Ms. Neha Arora*, *Dr. Tushar Shinde*, *Mr. Aditya Raj* and *Mr. Aniket Monde* for all the discussions at tea-point and sharing beautiful moments. I am very much thankful to other research fellows of CADM lab, *Mr. Aitha Sudheer*, *Ms. Sunidhi Dayam*, *Mr. Swarit Anand Singh*, *Mr. Shubham Vaishnav* and *Mr. Pratik Sorathiya* for being always there to lend a helping hand when it mattered most.

At this moment of accomplishment, I express my deep sense of gratitude to my parents, *Smt. Sushma Devi & Shri Shatrughan Agarwal*, without their continuous support and encouragement, I would not have been able to achieve my goals. I would like to express my heartfelt gratitude to my elder sisters *Ms. Neetu* and *Ms. Nidhi*, my nephews *Aadit*, *Priyansh* and *Ivaan*, and my lovely niece *Navya* who have been a constant source of love, concern and strength for all these years. They deserve a lot more credit for bearing my occasional visits and absence on several festivals.

I would also like to thank everyone who knowingly or unknowingly has helped me to complete this journey.

*Ankit Agarwal*  
*Ph.D. Student*
