

List of Figures

Figure	Title	page
1.1	Period tripling renormalization of a unimodal map f	4
1.2	Pairwise period tripling Renormalization of a bimodal map b	7
1.3	Pairwise period doubling renormalization of a bimodal map b	8
2.1	Affine maps associated with a scaling data	12
2.2	Intervals of next generations	13
2.3	Period triple interval combinatorics $(I_2^n \rightarrow I_3^n \rightarrow I_1^n \rightarrow I_2^n)$.	14
2.4	Illustration of operators R_n^- and R_n^+ .	15
2.5	Period three cobweb diagram	16
2.6	Length of the intervals gaps	16
2.7	From n^{th} to $(n+1)^{th}$ renormalization.	16
2.8	(a), (b), (c) and (d) show the graphs of $S_1(c)$, $S_2(c)$, $S_3(c)$ and $(S_1 + S_2 + S_3)(c)$ respectively.	17
2.9	The graph of $\mathcal{R} : F_d \rightarrow \mathbb{R}$ and the diagonal $\mathcal{R}(c) = c$.	18
2.10	The graph of map f_{s^*} .	19
2.11	Extension of f_{s^*}	21
2.12	ε - perturbation of $u_c^3(0)$.	24
2.13	(a): $\mathcal{R}(c, \varepsilon)$ and $\mathcal{R}(c)$ for $\varepsilon < 1$ and (b): $\mathcal{R}(c, \varepsilon)$ and $\mathcal{R}(c)$ for $\varepsilon > 1$.	25
2.14	A mapping diagram.	26
2.15	Extension of f_α .	27
2.16	The intervals of next generations	28
2.17	Illustration of operators R_n^{--} , R_n^- , R_n^+ , and R_n^{++} .	30
2.18	Period quintuple combinatorics $(I_2^n \rightarrow I_5^n \rightarrow I_1^n \rightarrow I_3^n \rightarrow I_4^n \rightarrow I_2^n)$.	31
2.19	Length of the intervals and gaps	31
2.20	The graphs of $S_1(c)$, $S_2(c)$, $S_3(c)$, $S_4(c)$ and $S_5(c)$	32
2.21	The graph of $\mathcal{R} : f_d \rightarrow \mathbb{R}$ and the diagonal $\mathcal{R}(c) = c$.	33
2.22	Intervals of next generations	36
2.23	Illustration of operators R_n^- , R_n^+ and R_n^{++} .	37
2.24	Period quadruple combinatorics $(I_2^n \rightarrow I_4^n \rightarrow I_1^n \rightarrow I_3^n \rightarrow I_2^n)$.	38
2.25	Length of the intervals and gaps	38
2.26	The graphs of $S_1(c)$, $S_2(c)$, $S_3(c)$ and $S_4(c)$	39
2.27	The graph of $\mathcal{R} : f_d \rightarrow \mathbb{R}$ and the diagonal $\mathcal{R}(c) = c$.	40
3.1	Renormalization of a bimodal map	44
3.2	Piece-wise affine extension	46
3.3	Formation of interval $I_{1,l}^{n-1}$ into three sub-intervals $I_{2,l}^n$, $I_{1,l}^n$ and $I_{0,l}^n$.	47
3.4	Formation of interval $I_{1,r}^{n-1}$ into three sub-intervals $I_{0,r}^n$, $I_{1,r}^n$ and $I_{2,r}^n$.	47
3.5	The combinatorics: (a) corresponding to f_{s_l} , $(I_{1,l}^n \rightarrow I_{2,l}^n \rightarrow I_{0,l}^n \rightarrow I_{1,l}^n)$ and (b) corresponding to f_{s_r} , $(I_{1,r}^n \rightarrow I_{2,r}^n \rightarrow I_{0,r}^n \rightarrow I_{1,r}^n)$.	48
3.6	Illustration of operators R_n^{l-} and R_n^{l+}	49
3.7	Length of intervals	50
3.8	(a) and (b) shows the graph of $S_{0,l}(c)$, and $S_{1,l}(c)$ respectively.	51
3.9	(a) and (b) shows the graph of $S_{2,l}(c)$, and $(S_{0,l} + S_{1,l} + S_{2,l})(c)$ respectively.	51
3.10	The graph of $\mathcal{R} : F_d^l \rightarrow \mathbb{R}$ and the diagonal $\mathcal{R}(c) = c$.	52

3.11	Illustration of operators R_n^{r-} and R_n^{r+}	53
3.12	Length of intervals	54
3.13	The graph of $\mathcal{R} : F_d^r \rightarrow \mathbb{R}$ and the diagonal $\mathcal{R}(c) = c$.	54
3.14	Extension of f_{s^*}	57
4.1	Pairwise period doubling renormalization of a bimodal map	64
4.2	Piece-wise affine extension f_s	66
4.3	Next generations intervals in I_l (Fig. 4.3a) and I_r (Fig. 4.3b).	66
4.4	Illustration of operator R_n^l	67
4.5	Length of intervals.	68
4.6	(a), (b) and (c) show the graphs of $S_{0,l}(c)$, $S_{1,l}(c)$, and $(S_{0,l} + S_{1,l})(c)$.	69
4.7	The graph of $\mathcal{R} : F_d^l \rightarrow \mathbb{R}$ and the diagonal $\mathcal{R}(c) = c$.	69
4.8	Illustration of operator R_n^r	70
4.9	Extension of f_{s^*}	73
4.10	The perturbed scaling data (a) on $I_L = [0, b_c(0)]$; (b) on $I_R = [b_c(1), 1]$.	76
